

Dearest LLELA staff,

Thank you for letting us go to your learning area. We had lots of fun learning about the outside world.

We got an experience we couldn't of gotten just anywhere. Most places would of just let us look at things. You let us do things! Letting us do things helped us learned about stuff without the boring work. Isn't that what field trips are suppose to do?

We had an awesome time and appreciate you letting us come. You helped us understand what an environmental center is suppose to be.

Dear LLELA,

Thankyou so much for having the W.A. Foster 5th graders as guests. We had a blast learning about plants and animals. The activities were amazing.

The activities were very fun. I loved how the kids got to do them. It didn't even seem like I was learning! That's how fun it was and the nature walk was so peaceful. Thankyou for having us!

Dear LLELA Staff,

I had a great time there. It was a experience to be there. Thank you for inviting us. I am glade I had the chance to go. I loved it there. The best time ever. I may even bring my family and show them what a cool places it is.

I learned so much there. I learned about some really cool bugs and animals. I learned a turtle tip: If a turtle is crossing the road put it were it was going. I learned how to investigate animals.

I had the best time there at LLELA. I hope to go there again sometime. I love the way you put the animal back were they used to be. I loved it there.

Dear LLELA,

I thank you so very much for letting us come to the wildlife center. I learned so much in one day than in a long time. The C.S.I. investigation was a lot of fun. So was the water invertal water investigation.

The hiking was great! I'm begging my Dad and asking him if we can go. All of the deer tracks and animal learning was just unbelievable! So was the staff.

Again thank you so very much for the wonderful experiences you gave us in only one day.

The LLELA experience was amazing! Every activity in which the students participated was well thought out, instructionally on-target, and very interesting! The kids loved it, and the parent feedback was exceedingly positive. Please pass along to everyone on staff and to all of the volunteers a big thank you from us. We definitely want to return to LLELA next year. Our students did extremely well on the Science TAKS test and we know our LLELA field trip helped their performance.
